

Cleaning Acrylic, Plexiglass and Lexan

When cleaning acrylic/plexiglass/lexan:

- Only use mild soap (such as Joy or Dawn) and lukewarm water
- Use a soft cloth
- Rinse well with clean water.

Do Not Use the following:

- Windex/Glass cleaner
- Cleaners that contain Alcohol or Ammonia
- Corrosive cleaners
- Acidic cleaners
- Abrasive cleaners
- Paper towels
- Rough textured cloths

Failure to follow above cleaning guidelines will result in below examples that will not be covered under warranty.
