

FLORAL

COLLECTION

 **Cayuga** DISPLAYS

DEPARTMENT: FLORAL

The floral department is a beautiful opportunity to enhance the fresh, vital impression of your overall store. We help you make the most of your stock, in its presentation and preservation!

The highly fluctuating nature of the floral department inventory means display units need to be versatile. We offer a number of mobile-friendly shelves, tables and cases to move easily out of the way when not needed and to blend seamlessly with the fixed components.

"I have worked with various fixture and millwork suppliers and I must say that Cayuga has provided me with the best product and service of them all."

Sharon Young, McGinnis Sisters
Special Food Stores.
Pittsburgh, PA

How to Order	24

THINGS TO CONSIDER

Showcases are designed to display your refrigerated products at 38-41°F (4-5°C). Showcases are designed to perform in environments of maximum 75°F (23°C) and 55% relative humidity.

****NOTE: FOR YOUR SHOWCASE TO FUNCTION AT PEAK EFFICIENCY YOU WILL NEED PROPER CLIMATE CONTROL AND AIR CIRCULATION****

You need to consider the following when selecting a showcase and placing it in your store environment:

1 Consider nearby doorways and vestibules

A location near a doorway will negatively affect the airflow and holding temperature of both open and closed showcases.

2 Consider nearby windows

Direct sunlight will negatively affect the holding temperature of both open and closed showcases.

3 Consider nearby vent sources, hoods, cooking equipment and fans

HVAC ceiling vents, exhaust hoods, cooking equipment (steam heat) and ceiling fans will negatively affect the airflow of open showcases and will create condensation on the showcases if not properly managed.

4 Ensure your display is level and plumb

Ensure your showcase is plumb and level to allow for proper drainage of condensation water.

Please note: These are critical points to ensure the best results for your equipment and efficient space – and the best return on your investment!

Regular Maintenance and Cleaning

Your showcase will work at its peak performance with regular maintenance. Refer to the Owner's Manual for maintenance and cleaning instructions.

To access the Owner's manual either visit us at cayugadisplays.com/resources/manuals or access the QR code located on the electrical box of your case. You can also check out our online maintenance video.

Watch our maintenance videos at <https://cayugadisplays.com/resources/videos>

5 Leave appropriate space behind display

A 6" space is required behind any showcase that is against a wall or has a rear obstruction to allow for proper air flow around your showcase.

6 Clean your condenser grill and pre-filter

Use the included brush to regularly wipe away dust. Too much dust will not allow the refrigeration to work properly and could result in **expensive** damage.

****Refer to Owner's Manual for additional case cleaning checklist****

7 ONLY PRE-CHILLED product in case

Refrigerated displays are designed to **KEEP COLD PRODUCT COLD** - they are not designed to bring warm products down to a cold temperature. For food safety it is always imperative that warm product be properly chilled (using a blast chiller or cold room) prior to storing in the refrigerated display case.

8 Noise

Self-contained cases have compressors, motors and fans and these will make noise. Keeping your showcase serviced and clean will help keep the noise level under control, improve lifespan, and maintain efficiency.

9 Condensation on closed and open cases

Condensation is caused by warm, moist air coming into contact with cool surfaces. If the case environment is not maintained below 75°F/23°C and 55% relative humidity, condensation may occur.

THREE-LEVEL UPRIGHT SELF-SERVICE FLORAL DISPLAY - 54"H

 REFRIGERATED

MODEL	LENGTH
FLP-MRO-24-54	26"
FLP-MRO-38-54	40 1/4"
FLP-MRO-48-54	49 7/8"
FLP-MRO-57-54	59 3/8"
FLP-MRO-76-54	78 1/2"
FLP-MRO-96-54	97 5/8"

FEATURES:

- Many exterior finish options available: powdercoat paint, brushed stainless steel, laminates and natural wood finishes
- Textured powdercoat black interior
- Other custom options are offered. Refer to the options schedule on the next page
- Designed to maintain the critical temperature of the products within the display at a range of 38-41°F (3-5°C) with an ambient atmosphere of 75°F (24°C)/55% humidity
- ETL electrical certification and NSF 7 standards
- New R-513A (non-ozone depleting, low global warming potential) refrigerant used in the self-contained refrigeration system
- The refrigeration system is designed to pull fresh air through a front base vent and exhaust heated air through an integrated vent at the back of the display
- Remote refrigeration available. Contact Cayuga Displays for details

Note: Information and specifications may change due to engineering improvements.

THREE-LEVEL UPRIGHT SELF-SERVICE FLORAL DISPLAY - 54”H

Formica® Laminate

Formica Group provides surfaces that fuse beautiful design with purposeful functionality. Formica® Products provide versatile surfacing solutions that are inspired by and adapt to the way people live, work and play.

Formica® Brand Laminate offers a broader range of looks than ever before. Transform spaces with our modern laminates that are as beautiful as they are durable. Mix and match solids, patterns and finishes.

Product Features:

- Postforming
- Durable and Wear-resistant
- Horizontal and Vertical
- Impact Resistant

Formica® EliteForm

Our innovative Formica® EliteForm surfacing technology redefines the performance attributes of high pressure laminate to deliver a more durable laminate for today's market. Formica® Laminate with EliteForm features superior scratch resistance over other laminate brands, the ability to postform to a smaller radius with better blister resistance, and more durable, long-lasting surfaces, including the Gloss texture in horizontal applications. EliteForm comes standard on all Formica® Laminates, at no additional cost.

Formica Canada Inc. is located in St-jean-sur-Richelieu, Quebec, and employs more than 250 people.

Formica Canada is proud to be part of the Well Made Here local purchasing program.

As the inventor of high pressure laminate, Formica Corporation has always worked to provide innovative, high quality products. Efficient use of resources is at our core, and we have taken many steps to improve our environmental footprint - from reusing the water in our presses to incorporating recycled materials into our surfacing products. We are committed to a long-term planning horizon that includes becoming an industry-leading environmental steward.

HOW TO ORDER

We'll help you select the right case for your requirements. The steps below will help us to serve you best.

- 1 Choose the showcase that meets your display requirements from the product specification sheets.
- 2 Review the options table found on the specification sheet and make your selections of the options provided.
- 3 Select from the large pallet of colours found on the last five pages of the brochure, or choose a stainless steel, standard black or white for the exterior finish of your showcase.
- 4 E-mail your request for a quote to your Cayuga sales representative or sales@cayugadisplays.com and we will quickly respond to your request. Please include your full contact information in case we have any questions.
